OK to change the document. By the way, I found out today that the meeting on Jan. 3 should include a presentation of this stuff. I may need your help in making sure there is enough info to put together a parallel construction across INBIFO, FTR and us.

Cathy,

Central Files signed out the ETS search document in my name. If you are not certain that this can be returned to Central Files, perhaps we should change that before you take it to New York. I don't want to have to deal with a document issue later.

Let me know how you would like to handle it.

Don
